

A Talk by Prof Sir Ian Chapman

CEO of The UK Atomic Energy Authority and Non-Executive Director of Guernsey Electricity Limited

Tuesday 25th April 2023 – 7:30pm

Venue The Cotils

all welcome – free to attend – no tickets required

There is increasing interest around the latest research into Fusion Energy as a long-term part of the energy generation mix bearing in mind recent and ongoing challenges in the global energy markets. Ian will outline the challenges still to overcome to deliver fusion as well as explaining the next steps happening in the field

Closer to home and much more immediate, the States of Guernsey is due to debate the Electricity Strategy for the island for the next few decades, and Guernsey Electricity will play a crucial role in this strategy.

Drawing on his experience of the UK Energy markets, as CEO of the UKAEA and Non-Executive Director of Guernsey Electricity, Sir Ian is in a unique position to talk about both of these important topics.

CIGPE is the representative body for professional engineering institutions in the Channel Islands. We organize several engineering related events each year including a series of technical lectures. These events are free to attend and contribute to Continued Professional Development. While aimed at engineers, our events are open to all members of the public.

**Next Lecture: 'Forensic Investigation', Isobel Colclough.
Wednesday 26th April 2023, 7:30pm, Les Cotils.**
